Ogden, Sunday, June 24.

## GRADING WELL ALONG.

Bamberger Road Being Pushed Toward Canyon Mouth.

According to the statement made by the contractors, 70 per cent of the grading for the construction of the Salt Lake & Ogden electric railway between Washington avenue and the mouth of Ogden canyon has been completed and the work is being pushed forward rapidly. One of the most important settlements regarding the right of way has just been concluded, whereby M. S. Browning disposes of a strip of land, 75 by 400 feet, adjoining the right of way on the old Farr farm. This land will be used for the purpose of changing the course of the Ogden river and obviating the necessity of constructing two bridges across that stream.

## DENTISTS ELECT OFFICERS.

Dr. Fred Meakin Is Chosen as Head of the State Association.

The final session of the Utah Dental association's sixteenth annual meeting was held yesterday forenoon, after which the whole assemblage journeyed to the Hermitage and feasted on one of Billy Wilk's trout and chicken dinner.

The election of officers resulted as follows: President, Dr. Fred Meakin, Salt Lake; first vice president, Dr. J. F. Snedaker, Ogden; second vice president, Dr. Joseph Grant, Kaysville; secretary-treasurer, Dr. L. E. Arnold, Salt Lake.

An interesting paper was presented by Dr. G. V. I. Brown of Milwaukee entitled "The Diagnostic Value of the Central Caudal Line."

## SUES FOR \$5,000.

Action Against Rapid Transit Company for Damages.

In the district court yesterday attorneys Maginnis & Corn filed a \$5,000 damage action against the Ogden Rapid Transit company, for Phyllis Brown, a minor, and Roy W. D. Brown, her guardian ad litem. The action is the result of an accident which befell Miss Brown May 5 last, when she was struck by a street car while riding along Twenty-fifth street on a bicycle. The complaint alleges that she was injured about the head, back and spine and that the injuries were of a permanent nature. Negligence on the part of the company is alleged on account of the speed at which the car was running and on account of failure to sound the proper warning.

## INJURED IN RUNAWAY.

Lawrence Nelson of Roy Is Badly Hurt.

Lawrence Nelson of Roy was injured yesterday afternoon. Nelson, after watering his horses at a public watering trough in front of the Tabernacle, attempted to climb on the wagon. He released his footing and fell down behind the horses on the double-tree and tongue. The horses became frightened and bolted. Nelson was thrown from the wagon and struck a pole and he was thrown to the ground. The wheels passed over him, cutting a deep gash in his leg below the knee. Shortly afterward the wagon was thrown against a second pole and demolished.

## New Bill for Divorce.

Attorney N. J. Harris, counsel for Nellie Brown, whose application for a divorce was turned down by Judge J. A. Howell on Friday last, had summons served on the defendant, Wallace Brown, again yesterday in connection with a new action that will be brought at once in which other grounds will be alleged as a cause for the application.

## Licensed to Marry.

Marriage licenses have been issued to Jess F. Odom and Miss Lizzie O. Deering, both of Chicago; George Houle of Salt Lake and Mrs. R. Colver of Cleveland, and Fred Edgington of Park City and Miss Lily Munson of Salt Lake. The last-named couple were married by Elder N. J. Harris.

## Elizabeth Scofield Passes Away.

Elizabeth Scofield, the 26-year-old daughter of Mr. and Mrs. William Henry Scofield of South Helper, died at the Ogden general hospital shortly after 12 o'clock yesterday noon from tuberculosis. The funeral will be held in the meeting house, South Helper, at 1 o'clock Wednesday.

# SALT LAKE MAY GET FACTORY

New Switching Device May Be Manufactured in This City.

## OPTIONS SECURED ON SITES

BOARD OF DIRECTORS DISCUSSES THE MATTER.

Negotiations have been commenced by the Manufacturers and Merchants' association to bring to Salt Lake City a factory to cost at least \$100,000, and which, when completed, will employ not less than 750 men all the year around.

The factory will use about 13,000 tons of iron and steel during the first year of its existence, and after the first year not less than 40,000 tons of iron and steel, in the construction of switching appliances for railroads and street railways.

The company which is looking toward Salt Lake for an opening is the Hurst Automatic Switch company of Rawlins, Wyo., the principal offices of which are now at Portland, Ore.

## Options on Sites Secured.

Sites were examined by these agents, and options were secured, while further negotiations were taken up with the association. The industries committee issued an invitation to the company a few days ago to install a model of the device at association headquarters, where local railroad and mechanical experts might have a chance to examine it. This was done, and the device attracted considerable attention.

Members of the local light and railway company made an examination and test yesterday, and reported to the board last night that he could give the device a thorough endorsement from a mechanical and practical standpoint. The inventor, he said, deserved great credit for the simplicity and effectiveness of the switch. He expressed the view that a large working model should be installed in order that local experts might have a chance to give the device the rigid practical tests that would be given in actual use.

This suggestion was adopted by the board, and a committee comprising Directors William Bowen, C. O. Harris and George S. McAllister was appointed to secure if possible a location in one of the local railroad yards for the installation of the device.

## Want Interurban Roads.

A resolution was adopted to effect that the association exercise every possible effort to secure the installation and operation at as early a date as possible of proposed interurban railroads that have been projected recently. It was stated that the establishment of these roads will bring about better business conditions, as they will give the people a better mode of communication and better freight transportation facilities.

# THREATENS TO MAKE TROUBLE

Massachusetts Briber Will Expose Some of the Rest of the Gang.

Boston, June 23.—In a statement issued tonight by F. J. Gethro, who was expelled from the Massachusetts house of representatives after having been found guilty of attempting to bribe fellow legislators, a confession of his guilt is made. Gethro says that average his expulsion he will expose every member of the house who has been connected with any bribery proceedings.

Gethro states that several members of the legislature have secured bribes and he declares that his revelations will make the giving or taking of bribes impossible at the state house in the future. Referring to the anti-bucket shop bill, Gethro says:

"I agreed to buy Republican votes, got the contract and bought the votes. To force me to raise the offer, some of those interested began to talk. The matter got to the grand jury and I was indicted. Then the investigating committee was appointed. I was told that if I stood firm the committee would see me through unharmed."

"When, however, I sat on the floor of the house on Thursday afternoon and saw myself held up to scorn, not by the handful of men whose names are above reproach, but by a mob of dastardly hypocrites who had been offered and taken ten bribes to my one, I swore then and there to avenge my expulsion. I am buoyed by the knowledge that I shall have done the state some good if in my ruin the structure of infamy headed by those men shall fall."

## AMUSEMENTS

An erroneous impression has got abroad that the Orpheum stock company is to be scattered. This is not the fact. The company will open at the Salt Lake theatre next week in "The Wife," exactly as at present constituted, with the exception of Miss Stewart, who has to leave. She will be succeeded by Miss Edna Ellsmere, who was leading lady at the Alhambra in San Francisco at the time of the earthquake.

"When We Were Twenty-one" drew a large audience to the theatre last evening. The play was as delightful as in the past.

## PERSONAL.

Dr. D. M. Lindsay is expected back from Europe on Monday.

O. D. Banks has gone to New York to be gone about six weeks.
